EXPERIENCE

Software development engineer II

[BML BUSINESS CENTER FILIALE RDC](#) | Kinshasa, DRC

2023 - PRESENT

I am mainly, designing and developing software & web applications using an impressive technology stack: spring boot, asp.net core, azure devops, docker, Git, visual studio, IntelliJ While also coding, debugging, testing, and troubleshooting throughout the application development process.

Tools: Asp.Net Core, Spring Boot, Angular, SQL Server

Technical lead & Software engineer

Wolf Company Sarl | Kinshasa, DRC

2019 – 2024

As a Software Engineer and technical lead, I combined my technical skills, and leadership abilities to deliver high quality software solutions, that meet the needs and expectations of various clients and users. I also oversee the software development lifecycle from planning to testing, and coordinate tasks and communication among team members and stakeholders.

Tools: Asp.Net Core, Spring Boot, Angular, Blazor, PostgreSQL

Freelance Software engineer

2019 - PRESENT

As a Freelance Software Engineer, I apply the principles of engineering, to design, develop and maintain Software solutions that meet the needs of various clients and users. I use my creativity and technical skills to create Software programs or systems that are functional, robust, and user-friendly.

Tools: Html, Css, Js, PHP, WordPress, Java

EDUCATION

Bachelor's degree in computer science: Intelligent Systems (in progress)

Uscitech | Kinshasa, DRC
January 2022 – August 2024
